A: If you registered at Autodesk you can still use the software. To get the serial number you can search Autodesk web registry. With the serial number you will have the activation. I've used it for years and years. It's a very good

program. A: Yes, you can still use Autocad 2007, but it will not run properly and you will have to activate it as a trial version. If you try to install the program that you have you will be prompted to purchase, unless you already own the software and have a serial number. When that happens you will need to contact Autodesk for another serial number. You can call or e-mail them at the site you signed up from. If you go to Autodesk website you will see other products. I recommend that

you take a look at these other products too. There is also Autocad Sketchup that was developed by Autodesk. Here is the place to get a registration code. How do I find Autodesk Serial Number for my old version of Autocad? Q:

Modifying qTip after initialisation

I have a problem with a custom qTip I have this code: `$('#selector').qtip({ content: 'Test', style: { name: 'h3', tip: { corner: true, width: 60 } }, position: { corner: false, // can you see problem? target:'mouse' } }) .click(function()`

{ alert('tip'); }); When I click on #selector, the alert gets executed. However, if I do this, it does not:

```
$('#selector').qtip({
```
